SENIOR WRITING					
Review by Advisor	Courses	Minimum Credits	Course Number	Completed Credits	Completed year/semester
<input type="checkbox"/>					

The following course requirements are for students seeking to receive BS in Biology with Thesis Honor recognition.

THESIS HONORS <sup>7</sup>					
Review by Advisor	Courses	Minimum Credits	Course Number	Completed Credits	Completed year/semester
<input type="checkbox"/>	Special Problems in Biology	3	120:491		
<input type="checkbox"/>	Special Problems in Biology	3	120:492		
<input type="checkbox"/>	Senior Thesis I	3	(120:498)		
<input type="checkbox"/>	Senior Thesis II	3	(120:499)		

<sup>1</sup> All students (including transfer students) are required to take Gen Bio I and II, and a 'C' or better grade is required for taking Biology electives. Transfer students who took equivalent courses in other colleges can be exempt from taking the Gen Bio courses at RUC by taking the 'exemption test' with a 70/100 or better score.

<sup>2</sup> Calculus for Life Sciences or Unified Calculus.

<sup>3</sup> Biostatistics course will be offered in Fall semester

<sup>4</sup> Organic Chemistry II with a lab (160:339,340) is not required for the Biology Major. However, Organic Chemistry II with a lab (160:339,340) is required for the admission of medical professional schools. Students planned to apply Medical Schools or Physician's Assistance schools should plan to take them either in the second semester of sophomore or in the senior year.

<sup>5</sup> This course is a prerequisite for all electives with a lab. Students are recommended to take the course in the second semester of sophomore year. All transfer students are required to take the course within one year after transfer into Rutgers University-Camden.

<sup>6</sup> Special Problems in Biology (50:120:491,492) can be used toward the elective laboratory requirement for the degree. To use the Special Problems in Biology toward the Biology elective lab requirement, the following condition has to be met;

- Students must co-register with Biology Seminar, and are required to present a seminar.
- Students must take it for the letter grade, not pass/fail grade.
- Students must take it for at least three credits (minimum 9 hrs lab work per week).
- Only one course (50:120:491) will be counted toward the Biology elective lab course requirement.

<sup>7</sup> Taking Special Problems in Biology (50:120:491,492) in two consecutive semesters is required for taking the Thesis Honor course.
